Industrial Maintenance Aerosols

Clear Fine Oil

CODE: **R211**

Intricate lubricant for delicate maintenance

A general purpose, light duty lubricant and penetrant designed to release seized components and lubricate small, delicate mechanisms.

Benefits:

- Release seized and rusted parts
- Effective on small and delicate components
- Rapid penetrating action
- Use on metallic components
- Low viscosity

Technical Data:

Appearance: Pale yellow liquid
Odour: Light oily odour
Contents: Blend of naphthenic based lubricant with a butane/propane propellant
Storage: Below 50°C
Flash Point: <0°C
Temperature range: For use at ambient temperatures
Relative Density: 0.90
Solubility: Insoluble in water
Pack Sizes: 12 x 400ml cans
Directions for Use: Shake can thoroughly, hold upright and spray component from a distance of 25 to 30cm. For difficult to reach areas use the extension straw provided. Remove excess with a clean cloth.
